SCHOOL REPORT.

The Board of Education submits the following report of the schools for the past year.

Number of schools maintained, four, with two terms each.

The Dunbar Hill school had one term of seven weeks in length and one of eleven weeks.

In the other divisions the terms were of eight and ten weeks in length.

As the school house in the Dunbar Hill division was unfit for use a room in a private house was procured. It is to be hoped that the school house may be made ready for use before the time arrives for the commencement of the next term.

Our schools are not all in the condition which might be desired, for which there are various reasons. Among them may be named the following: first, lack of interest on the part of parents; second, the difficulty of obtaining suitable teachers with the means at the disposal of the School Board, and the fact that those persons who make teaching their business, *want*, and *can have, elsewhere*, three terms, at least, in a year.

The school house on Dunbar Hill has been removed to a more central location, and partially repaired. When finished, it will be much more convenient for school purposes than formerly. An out-building is needed there, and some more work upon the shed at the village.

The school room at North Grantham needs quite extensive repairs and new furniture.

The number of scholars in town, according to the enumeration by the Selectmen April 1, 1888, was 103.
